Directions to the Timber Trail Work Area

Park at the Dixon Reservoir parking lot, off Hwy 42C. If you are using Google Maps, **"Dixon Reservoir Parking"** will take you to the right place. Do NOT use "Pineridge Natural Area."

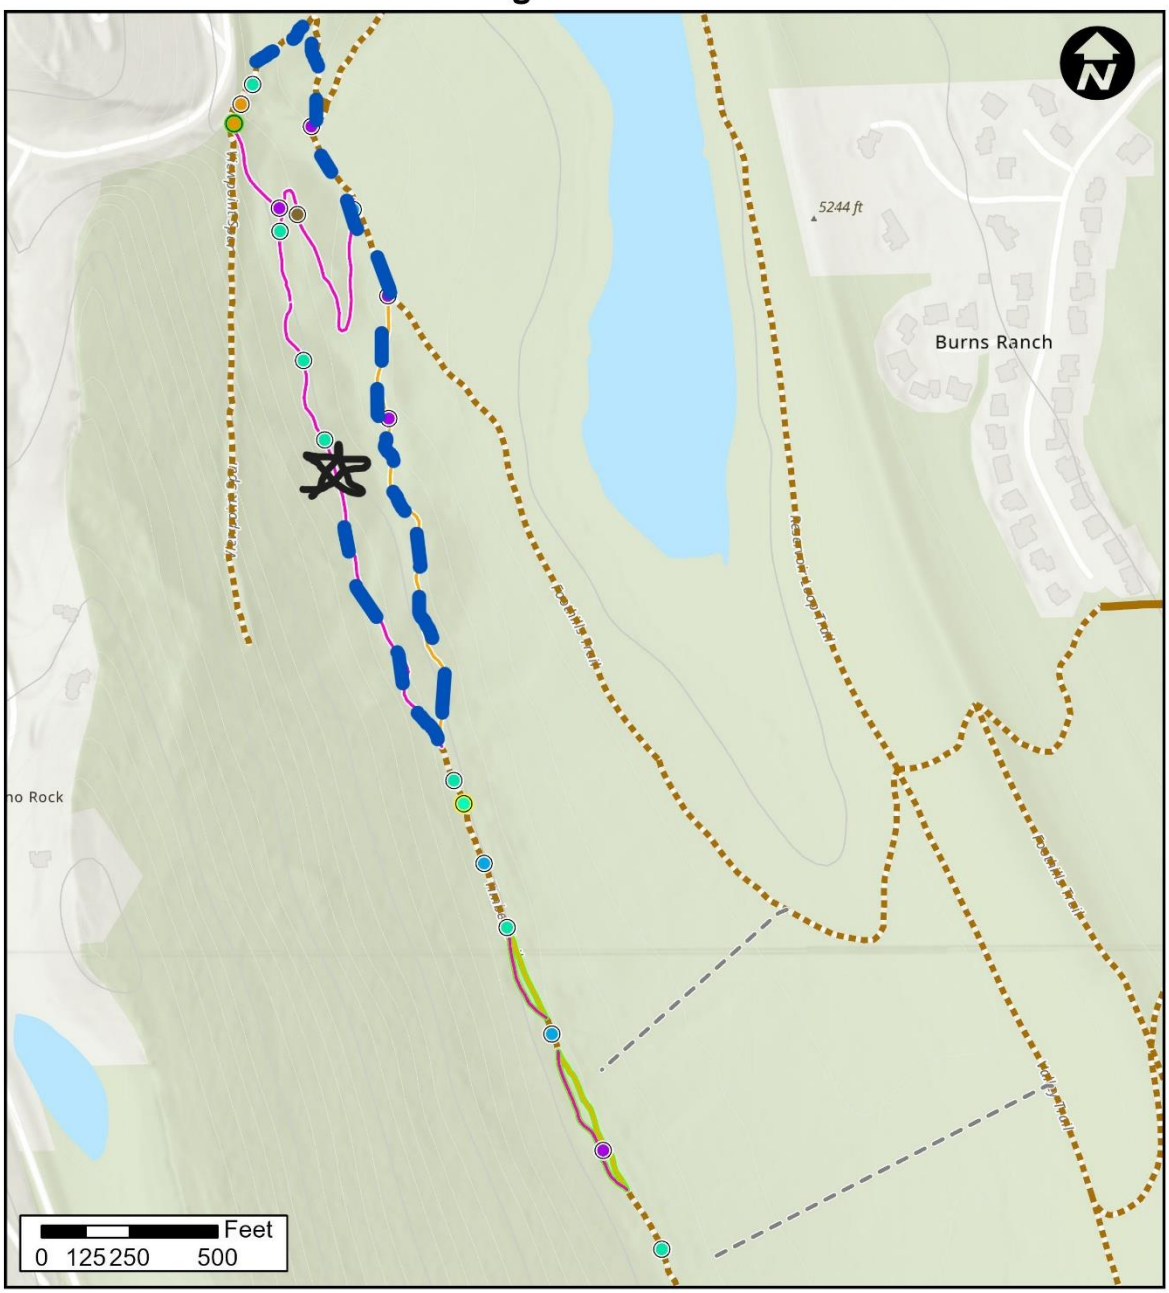

Access the job site through the Dixon Reservoir parking lot. Turn left to head down to the Dixon Reservoir Loop trail. Turn right on Dixon Reservoir loop as if you were going counterclockwise around the reservoir. Turn onto Timber Trail. Head up the Timber Trail till you see the signage of the start of the reroute on your right-hand side. Turn onto the new reroute and walk down the trail till you run into our team at work!

Refer to the map on page 2 for the correct location. You should be able to see the Trails and Visitor Amenities team and their vehicles from the south end of the parking lot.

Register to attend here: Timber Trail Work Day 11-4-26
